Notes to the Condensed Consolidated Financial Statements

1. General information on the Group

AmRest Holdings SE ("The Company", "AmRest") was incorporated in the Netherlands in October 2000. Since 2008 the Company operates a European Company (Societas Europaea, SE). The company is domiciled in Spain.

There was no change in name of reporting entity during the reporting period.

Paseo de la Castellana 163, 28046 (Madrid), Spain is the Company's registered office as of 30 June 2021 and has not changed during the reporting period.

Hereinafter the Company and its subsidiaries shall be referred to as the "Group" and "AmRest Group".

In 2005 the shares of AmRest Holdings SE were quoted for the first time on the Warsaw Stock Exchange ("WSE") and in 2018 were quoted on the Madrid, Barcelona, Bilbao and Valencia Stock Exchanges, through the Spanish Automated Quotation System (Sistema de Interconexión Bursátil - SIBE). Since 21 November 2018 AmRest's shares have been quoted simultaneously on both the above stock exchanges (dual listing).

Grupo Finaccess S.A.P.I. de C.V. is the ultimate parent of the Group.

The Group is the largest independent chain restaurant operator in Central and Eastern Europe. The Group is also conducting its operations in Western Europe, Russia and China. The Group's principal place of business is Europe.

The Group operates Kentucky Fried Chicken ("KFC"), Pizza Hut ("PH"), Burger King ("BK") and Starbucks ("SBX") restaurants through its subsidiaries in Poland, the Czech Republic (hereinafter Czechia), Hungary, Slovakia, Russia, Serbia, Croatia, Bulgaria, Romania, Germany, France, Austria, Slovenia and Spain, on the basis of franchise rights granted. Starting from October 2016 the Group as a master-franchisee has the right to grant a license to third parties to operate Pizza Hut Express and Pizza Hut Delivery restaurants (subfranchise) in countries of Central and Eastern Europe, while ensuring a certain share of restaurants operated directly by AmRest. Pizza Hut restaurants acquired in France in May 2017, in Germany in July 2017 and in Russia in June 2018 are operated both by AmRest and its sub-franchisees based on master-franchise agreements.

In Spain, France, Germany and Portugal the Group operates its own brands La Tagliatella. This business is based on own restaurants and the franchise agreements signed with non-related companies. It is supported by the central kitchen located in Spain which produces and delivers products to the whole network of the mentioned own brands. The Group also operates its own brand Blue Frog (in China and Spain).

In 2018 the Group acquired the Bacoa and Sushi Shop brands, as a result of which it operates own and franchise restaurants in Spain (Bacoa) and own and franchise Sushi Shop restaurants in France, Belgium, Spain, several Middle East countries, Switzerland, United Kingdom, Luxembourg, Italy, Portugal. Bacoa is a Spanish premium burger chain, and Sushi Shop is the operator of the leading European chain of Japanese cuisine restaurants.

Additionally, among own brands the Group operates virtual brands Pokaï, Lepieje, 'Oi Poke, Moya Misa Ramen, Pierwsze i Drugie, Viva Salad!, Sushi Tone, Eat's Fine, Cremontano, Mr. Kebs. The offer of virtual brands in Poland is available also under Food About concept - an umbrella brand that enables ordering different virtual brand dishes within one order.

As of 30 June 2021 the Group operates 2 367 restaurants (own and franchise) in comparison to 2 337 restaurants as of 31 December 2020.

The Group operates its restaurants mainly on a franchise basis. However being master-franchisee and performing business through own brands has become more important. The table below shows the terms and conditions of cooperation with franchisors and franchisees of particular brands operated by AmRest as at 31 June 2021:

¹⁾ AmRest Group took up 82% and Starbucks 18% of the share capital of the newly-established companies in Poland, Czechia and Hungary. In the event of default, deadlock, or disputed take-over or change of control over AmRest Holdings SE and/or its shareholders, Starbucks will be entitled to increase its share to 100% by purchasing shares from the Group. Option upon termination for event of default or deadlock are symmetric for both parties, so that AmRest will also be entitled to exercise the option to purchase all of the Shares of Starbucks. According to Group assessment as of the day of this report issuance there are no indicators making the mentioned above options realizable. The Group acquired 100% of shares in Romanian and Bulgarian entities, being the sole operators in these markets. In Germany the Group acquired 100% of shares in a key operator in this market.

- 2) The fee is updated at the beginning of each calendar year for inflation.
- 3) Preliminary franchise fees and marketing costs might be changed if certain conditions set in the agreement are met.
- 4) Validity period of franchisee agreement, therefore licenses for Burger King restaurants opened in Poland in the period from 1 March 2009 till 30 June 2010, and also for newly-opened restaurants in Poland was. extended from 10 to 20 years since the date of restaurant opening, however, without the option of prolongation for the next 10 years, which was provided in the original development agreement with AmRest Sp. z o.o. In relation to restaurants opened in Poland in the period from 1 March 2009 to 30 June 2010 and in relation to restaurants opened after this period (for franchise agreements for 20 years) the initial franchise payment was increased from USD 25,000 to USD 50,000. On 20 November 2018 a new Development Agreement was signed, amended on 15 September 2020
- 5) Due to global Starbucks decision, the franchisee fee was decreased to 0% for the period April June 2020.
- 6) In case of Russia and Germany MFA term ends on 31 May 2022.

3. Basis of preparation

These condensed consolidated financial statements for 6 months ended 30 June 2020 have been prepared in accordance the IAS 34 Interim Financial Reporting and were authorised for issue by the Company's Board of Directors on 25 August 2021.

This interim report does not include all the information and disclosures required in the annual financial report. Accordingly, this report should be read with conjunction with the consolidated financial statements for the year ended 31 December 2020.

Unless otherwise indicated, amounts in this consolidated interim report are presented in euro (EUR), rounded off to full millions with one decimal place.

The preparation of this condensed consolidated financial statements requires to make certain assumptions and estimates that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Estimates and judgments are continually verified, and are based on professional experience and various factors, including expectations of future events, that are deemed to be justified in given circumstances. The results of the estimates and the respective assumptions are the basis for assessing the values of assets or liabilities which do not result directly from other sources. Actual results may differ from these estimates.

The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 31 December 2020, except for the adoption of new standard, interpretations, and amendments to standards effective as of 1 January 2021.

Several amendments apply for the first time in 2021, but do not have any material impact on the interim report of the Group. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

In May 2020 IASB issued COVID-19-Related Rent Concessions - amendment to IFRS 16 Leases ("the 2020 Amendment") that provide relief to lessees from applying IFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the COVID-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a COVID-19 related rent concession from a lessor is a lease modification.

The Group has applied the amendments to IFRS 16 already in 2020 for the first time. The effect of the accounting is presented under "rent concessions" lines.

One of the conditions of applying the amendment was that it related to a reduction in lease payments due originally on or before 30 June 2021. However, the pandemic has continued beyond the period envisaged when the 2020 Amendment was issued. In April 2021 IASB has extended the amendment to IFRS 16 and the entities will be allowed to apply the amendment to a reduction in lease payments originally due on or before 30 June 2022 ("the 2021 Amendment"). This amendment was not approved by European Union as at the date of publication of these condensed consolidated financial statements.

¹ On 25 November 2016 Amrestavia, S.L.U., the sole shareholder of AmRest GmbH, decided to liquidate this company. The liquidation process has not been finished up until the date of this Report.

² On 1 October 2020 Sushi Shop Belgique SA, the sole shareholder of Sushi Shop Anvers SA, decided to liquidate this company. The liquidation process has not been finished up until the date of this Report.

³ On 1 October 2020 Sushi Shop Group SAS, the sole shareholder of Sushi Shop NL B.V., decided to liquidate this company. The liquidation process has not been finished up until the date of this Report.

⁴ On 16 December 2020 Sushi Shop Management SAS, the sole shareholder of Sushi Shop Holding USA LLC, Sushi Shop NE USA LLC, Sushi Shop NY1 LLC and Sushi Shop NY2 LLC decided to liquidate these companies. The liquidation process has not been finished up until the date of this Report.

Restatement of comparative information

The 2020 Amendment for rent concessions was not endorsed by European Union when Group was preparing its condensed consolidated financial statements for 6 month period ended 30 June 2020. The Group applied the amendment retrospectively starting from its interim report for Q3 2020.

Comparative information in these condensed consolidated financial statements have been restated to reflect the impact of the 2020 Amendment for 6 months period ended 30 June 2020.

In late 2019 a novel strain of coronavirus, COVID-19, was first detected and in March 2020, the World Health Organization declared COVID-19 a global pandemic. Throughout 2020 and in 2021 COVID-19 has spread throughout globally, including the countries the Group operates.

Most governments have been implementing measures to reduce the spread of COVID-19. These measures include restrictions on travel outside the home countries, closing or imposing limitations on business and other activities as well as encouraging social distancing. Depending on the epidemic situation in particular countries and regions the restrictions were being lifted, reduced or re-imposed in 2020. With the approvals of first vaccines at the end of 2020, the governments deployed and started carrying out mass vaccination programs in 2021. During 2021 less restrictions and limitations are imposed and significant efforts are put by governments on vaccination programs. With the success of vaccination programs, it is expected that further waves of infections will be avoided, and restrictions and lockdowns will not be imposed in such frequency and severity as in 2020.

This situation is affecting AmRest Group, as well as the global economy. Visible results of the COVID-19 outbreak include the decrease in demand, the disruption or slowdown of supply chains and a significant increase in economic uncertainty, increase of volatility in the price of assets, exchange rates and a decrease in long term interest rates. Possible results of the COVID-19 outbreak may include changes in the market environment, peoples behaviors and ways of living.

The COVID-19 pandemic has a particularly significant negative impact on the restaurant sectors. Periodical bans or significant restrictions are imposed on the restaurant operators in various countries. That results in significant decrease in business activity. High pressure on social distancing has an impact on the customer demand and daily lives and behavior patterns. The Group is continuously adjusting restaurant operations into new reality. The Group is adapting to new local sanitary regulations, developing, and executing safety measures to protect employees and guests.

To strengthen Group's position in terms of liquidity the Group has drawn available tranche of syndicated bank loan, and applied state supported bank loans on French, Spanish and Russian markets in 2020. The Group maintains close communication with its financing banks and bondholders. Waiver covenants for the fourth quarter of 2020 and the first, second and third quarters of 2021 have been replaced by a commitment to maintain a minimum level of liquidity. This covenant was met as at 30 June 2021.

The Group continues the process of the review of its rental agreements and negotiating with landlord. Another tool that allows to support liquidity management is the reassessment of development plans and renegotiations of certain development agreements.

The Group is also closely monitoring situation on local markets and is taking the benefits of available government aid schemes which allow to enhance liquidity risk management in current situation.

On the revenues streams side, the Group keeps high number of stores operative. As at 30 June 2021 over 98 % of stores remained open. The Group is continuously analyzing the dynamic changes in the environment and adjusts its ongoing operations to minimize the risk of disruption of business continuity and to increase possible ways of providing products and services to Group's customers, ensuring staff and guests safety, as well complying with all government directives.

Group's revenues generated for the 6 months period ended 30 June 2021 are higher than budgeted, the same as the Groups cash position. Based on the available information, facts, circumstances and uncertainties about the future, which is at least, but is not limited to, twelve months from the end of the reporting period, the Board of Directors concluded that going concern assumption applies in the foreseeable future. Consequently, this interim report has been prepared under going concern principle.

4. Segment reporting

AmRest as a group of dynamic developing entities running operations in many markets and various restaurant business segments is under constant analysis by the Board of Directors. The Board is also constantly reviewing the way business is analysed and adjusts it accordingly to changes in the Group's structure as a consequence of strategic decisions.

Group produces various reports, in which its business activities are presented in a variety of ways. Operating segments are set on the basis of management reports used by the Board when making strategic decisions. The Board of Directors analyses the Group's performance by geographical breakdown in divisions described in the table below.

Own restaurant and franchise business is analyzed for four operating segments presenting Group's performance in geographic breakdown. Geographical areas are identified based on the similarity of products and services, similar characteristics of the production process and of the customer base and economic similarities (i.e. exposure to the same market risks). Fifth segment includes in general non-restaurant business. Details of the operations presented in each segment are presented below:

5. Revenues

The Group operates chains of own restaurants under own brands as well as under franchise license agreements. Additionally, the Group operates as franchisor (for own brands) and master-franchisee (for some franchised brand) and develops chains of franchisee businesses, organizing marketing activities for the brands and supply chain. Consequently, the Group analyses two streams of revenue:

- Restaurant sales,
- Franchise and other sales.

Restaurant revenues are the most significant source of revenues representing over 95% of total revenues during 6 months period ended 30 June 2021.

Group's customers are mainly individual guests, that are served in the restaurants, therefore the Groups' customer base is widely spread. There are no significant concentrations of revenues risks. Payments for the restaurant sales are settled generally immediately in cash or by credit, debit and other cards. There are no material credit risks related to this type of operations.

The COVID-19 pandemic has a particularly significant negative impact on the restaurants sectors. The ban or significant limitations in operation of restaurants resulted in a decrease in business activity and customer demand and consequently decrease of the revenues in the reporting period.

The Group maintains high percentage of opened and operating restaurant. During first quarter of 2021 between 92% and 95% of restaurants were opened, whereas in second quarter between 96% and 98% restaurants remain operative.

Still, even with opened restaurants some limitations and restrictions that limited number of guests were imposed by various governments. Additionally, the process of returning of the guests to restaurants is not immediate within the lifting of restrictions. Consequently, the level of sales revenues generated by the restaurants is lower than before the COVID-19 outbreak. It is not possible to reliably and objectively quantify the economic impact of pandemic situation on the Group's revenues.

Other operating income/expenses

Other operating income and expenses section for H1 2021 consists mainly of accounted government assistance programs that amounted to EUR 28.4 million, out of that EUR 10.3 million income was recognized for government assistance programs for payroll and employee benefits (payroll costs EUR 8.7 million and social contribution EUR 1.6 million), whereas EUR 18.1 million was recognized for government support programs for rent and other. Further details of COVID-19 pandemic governmental programs used by the Group are disclosed below.

The above government grants are in a form of cash grants out of which EUR 2.3 million as of 30 June 2021 was not received yet.

It is not possible to reliably and objectively quantify the economic impact of pandemic situation on the Group's operating costs. Some costs such as depreciation and amortization are fixed in nature, others (like payroll and social contributions) are dependent on number of operating restaurants but may not be directly corelated to sales revenues generated by the restaurants. Cost of sales and royalties, variable rent, as a rule are most directly tied to revenues level, and finally costs of marketing may relatively increase.

In order to enable Group companies to operate in a possibly smooth manner, procedures have been put in place to ensure prompt reaction of appropriate services. In addition, the Group implemented additional measures to mitigate the risk of infection among its employees, including in particular:

- Providing detailed instructions and guidelines on monitoring the health of the Group's employees and the health of Group's guests.
- Strengthening already stringent hygiene, cleaning and sanitation procedures and introducing contactless options that protect both employees and quests in restaurants.
- Providing the restaurant employees with additional personal protection and hygiene supplies.
- Requesting to reduce the number of meetings as well as domestic and foreign business travel, and to
 use teleconferencing and video-conferencing facilities to the largest extent possible, as well enabling
 remote work.

With the spread of pandemic many governments were applying lockdown procedures and various limitations for businesses to operate. In order to mitigate the disadvantageous effects of the lockdowns, many countries' governments, have introduced various measures to assist entities in response to the COVID-19.

The Group was and is closely monitoring available program that are offered on various markets. The government support programs include for example direct subsidies to payroll costs, tax exemptions, social security contributions reductions. Additionally entities from the Group were able to apply for extended deadlines for payments of various taxes.

The Group has taken numerous actions aimed at utilizing government support related to cost of labor offered on all markets where the Group operates. One of the priority tasks in this respect has been to avoid a significant decrease in the level of employment, taking into account the effectiveness of the ongoing processes and to ensure financial security for employees to the extent possible in the current situation but also to optimize payroll costs in Group.

Government programs implemented with regards to COVID-19 spread allow also to defer payments taxes, social securities and other public obligations.

For the main markets of operation the Group has filled the following programs in the area of labor costs:

- Spain
 - In accordance with the provisions of article 47 of the Workers Statute, in relation to Royal Decree 1483/2012 and article 22 and 23 of Royal Decree-Law 8/2020, as well as Royal Decree-Law 30/2020, AmRest companies in Spain have filed before the Spanish labor authority a Temporary Employment Regulation File (Expediente de Regulación Temporal de Empleo or "ERTE"). During the Q1 2021 there has been 1.087 employees under ERTE, during the Q2 2021 755 and at the end of this period 3 employees.
- Poland
 - During H1 2021 Polish subsidiaries have not received support from government programs.
- France
 - The Partial Activity technical unemployment government program started on 15 March 2020 continues in the same condition until June 2021. In 2021 restaurants still use it on rotating employee basis (except Sushi Shop in March and June 2021).
- Germany
 - Reduced working hours (Kurzarbeitergeld) salary government reimbursement program has been introduced effective on 1 March 2020. After the second wave of restrictions started in Q4 2020 the companies applied for the next governmental help beginning of November 2020. From June 2021 on the Group is only eligible to get the government payment for a small number of restaurants. The

government reimburses now 60-87% of the net salary and social contribution depending on the individual situations. The reimbursement is based on not worked hours as compared to the contract hours. The company pays the difference up to 90% of the average salary before March 2020.

Czechia

The companies have applied for the government aid under special COVID-19 regulations. There were two separate programs:

- employees on downtime between 13 March and 31 May 2020: 80% of salary and social contribution reimbursed by the government (1 600 employees covered),
- employees with 40% reduction of working hours between 13 March and 31 May 2020: 60% of salary and social contribution reimbursed by the government (80 employees covered).

During the second and third wave of restrictions (Q4.2020, Q1.2021, Q2 2021) the companies again applied and received governmental aid. COVID Payroll compensations programs finished at the end of May 2021.

Hungary

Under the Act on Special Provisions During COVID-19 (Regulation of 485/2020) released on 10 November 2020 the companies applied for:

- 50% reimbursement of gross salaries, but maximum 671 EUR/employee for the period from November 2020 to May 2021,
- suspension for employer social contributions and suspension of employer rehabilitation contribution from November 2020 to May 2021.

Similar actions are also taken on other markets. The Group has applied for support programs offered by each country's government, in the form of reimbursement of labor costs, and introducing internal actions, such as shortening of working hours or technical unemployment.

Group's policy is to present government grants related to income as other operating income.

Other grants - main programs:

Entities operating in Czechia and Slovakia applied for a government program called COVID Najem (government grants for rent costs) and Covid Gastro, entities in France applied for government program called Fond de solidarité. The Group has recognized EUR 2.4 million from above described programs in H1 2021.

In April 2021 the State supported loan in Russia in the amount EUR 2.7 million was forgiven. Bank waived it based on the particular indicators with main that was maintaining the required employment rate.

Entities operating in Germany applied for the Nov/Dez Hilfe program that was meant to support industries hit by the lockdown and compensates lost sales. The Group recognized EUR 12.8 million from that program in H1 2021. The Group is in the process of application for the new program (Ueberbrueckungshilfe) that started from January 2021 - the state shall compensate a part of carried fixed costs, the amount of compensation shall be dependent on sales decline compared to 2019.

Government grants are in some cases associated with requirements to keep the agreed level of workforce for agreed period. As of 30 June 2021 the Group does not expect that such conditions would not be met, therefore there are no material unfulfilled conditions or other contingencies attached to government assistance that has been recognised.

Tax risks and uncertain tax positions

Tax settlements may be subject of the tax control for the period of 3-5 years from the date of their filing.

Tax settlements of AmRest entities are subject to several tax inspections which were widely described in the note 33 "Tax risks and uncertain tax position" to the consolidated financial statements for 2020.

On 30 March 2021 AmRest sp. z o.o. received the final decisions for 2013 and 2014 CIT settlements issued by the Head of the Lower Silesian Tax and Customs Office issued. The decision of the first instance for 2014 has been cancelled. For 2013 the tax office upheld the decision in respect of the CIT levied on VAT refund for this year - due to the fact that the decision was enforceable the Company paid outstanding tax liability together with the interest. The Company did not agree with the decision received in respect of 2013 CIT settlements and on 28 April 2021 filed the complaint to the Local Administrative Court.

On 22 March 2021 Pastificio Service S.L.U. (as the taxpayer), AmRest Tag S.L.U. (as head of the Tax Group during the tax audit period) and AmRest Holdings SE (as the current head of the Tax Group) received the settlement agreement from the tax office indicating the additional tax liability amounting to EUR 1.1 million, which was paid by the taxpayer on 14 June 2021. However, the Company disagree with the tax authorities and on 22 April 2021 submitted the economic-administrative claim and the allegations has been filed on 26 July 2021.

On 23 June 2021 Pastificio Service S.L.U. received notification of the start of an inspection relating to a municipal tax (business activity tax) for the fiscal years 2018-2021. The tax inspection is related to the Pastificio's activity in the Central Kitchen (Lleida).

Tax proceedings in Sushi Shop Group SAS entity relating to years 2018 and 2019, which started in December 2020, have been finished. On 10 July 2021 the Company has accepted the rectification of tax result proposed by French Tax Authority and has agreed to pay additional tax liability of EUR 0.3 million together with interest.

On 9 June 2021 AmRest Kft and on 14 June 2021 AmRest Kávézó Kft have received the notification letters in respect to planned initiation of tax proceedings. As of 30 June 2021 and as of the date of publication of this Report the exact scope of the inspection is not known and the proceedings have not started yet.

On 20 July 2021 AmRest sp. z o.o. has received the notification from the Polish tax authorities in respect to opening the suspended proceedings related to the annulment of the final decision covering VAT for 2014 (detailed background of these proceedings was described in point (a) of the note 33 "Tax risks and uncertain tax position" to the consolidated financial statements for 2020 related to the tax inspections in AmRest sp. z o.o.).

On 19 July 2021 AmRest sp. z o.o. has received the notification from the Polish tax authorities in respect to opening the suspended tax inspection covering VAT returns for the period December 2017 – March 2018 (detailed background of these proceedings was described in point (d) of the note 33 "Tax risks and uncertain tax position" to the consolidated financial statements for 2020 related to the tax inspections in AmRest sp. z o.o.).

On 28 July 2021 AmRest sp. z o.o. has received the notification from the Polish tax authorities in respect to opening the suspended tax inspection covering VAT returns for the period April – September 2018 (detailed background of these proceedings was described in point (e) of the note 33 "Tax risks and uncertain tax position" to the consolidated financial statements for 2020 related to the tax inspections in AmRest sp. z o.o.).

Since 31 December 2020 till the date of approval of these condensed consolidated financial statements the status of other reported tax related risks has not changed. The Group did not receive any other new decisions except the ones described above and no new tax inspections took place.

The Group's risk assessment regarding tax risks and uncertainties has not changed since the publication of the consolidated financial statements for 2020, except for the revised approach regarding the tax proceedings in Spain. Therefore, as of 30 June 2021 and as at the date of publication of this Report, no provisions other than the one stated above were created.

In Group's opinion, there are no other material contingent liabilities concerning pending audits and tax proceedings.

Group did not identify goodwill impairment indicators for 6 months period ended 30 June 2021, and consequently has not performed goodwill impairment tests.

13. Impairment of non-current assets

Restaurant level tests

The Group periodically reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated for the purpose of impairment testing. The recoverable amount of an asset is determined at the level of a single restaurant as the smallest unit (or set of assets) generating cash flows that are largely independent of the cash inflows generated by other assets /groups of assets. Restaurant assets include amongst others property, plant and equipment, intangible assets and right of use assets. Impairment indicators defined by the Group are described in note 40 of consolidated financial statements for the year 2020.

Impairment indicators are reviewed twice a year and respective impairments test for restaurants are performed twice a year.

The recoverable amount of the cash-generating unit (CGU) is determined based on value in use calculation for the remaining useful life determined by lease expiry date or restaurant closure date (if confirmed), using the discount rate for each individual country.

Carrying amount of each CGU consists of carrying amount of above-described assets decreased by balance of lease liabilities assigned to the restaurants (net assets of CGU). To determine the recoverable amount of CGU the lease liabilities balance is also deducted from total discounted cash flows (without the base rental charge). Carrying amount of CGU is compared with recoverable amount and impairment loss is accounted up to total balance of net assets of CGU.

Discounts rates applied are shown in the table below.

Additionally Group recognized impairment loss on intangible assets and goodwill as a result of goodwill impairment tests as disclosed in next section.

Goodwill and intangibles with undefined useful lives level

The Group performs impairment test for goodwill together with any intangible assets with indefinite useful lives, other intangibles, property plant and equipment, right of use assets, as well any other non-current assets that operate on the group of CGUs where goodwill is allocated.

Mandatory impairment tests are performed at year ends. The Group has not identified impairment indicators for goodwill impairment test for 6 months ended 30 June 2021.

For 6 months period ended 30 June 2020 Group recognized impairment losses for Bacoa business in Spain, and Starbucks business in Germany.

The impairment test performed for Bacoa business resulted in recognition of impairment losses in total value of EUR 3.6 million which included impairment for goodwill EUR 1.2 million and impairment of Bacoa trademark in amount of EUR 2.4 million.

The impairment test performed for Starbucks Germany business resulted in recognition of impairment loss of EUR 26.4 million for goodwill.

Share premium

This item reflects the surplus over the nominal value of the share capital increase and additional contributions to equity without issue of shares made by shareholders prior to becoming a public entity.

There were no transactions within share premium in 6 months period ended 30 June 2021.

Hedges valuation

The Group is exposed to foreign currency risk associated with the investment in its foreign subsidiaries, which is managed by applying net hedge investment strategies.

In 2018 AmRest Holdings assigned its PLN 280 million external borrowing as a hedging instrument in a net hedge for its Polish subsidiaries.

AmRest Sp. z o.o., a Polish subsidiary, with PLN as functional currency, is a borrower of external EUR financing. A bank loan of EUR 220 million has been hedging the net investment in its EUR subsidiaries both in 2018 and 2019. Following a change in presentation currency of the Group from PLN to EUR, AmRest Sp. z o.o. remains exposed to the foreign currency risk between the functional currency of its net investment in its EUR investments and its own functional currency (PLN). These different functional currencies create a economic exposure to changes in fair values in the consolidated financial statements of the Group.

For all net investment hedges, exchange gains or losses arising from the translation of liabilities that are hedging net investments are charged to equity in order to offset gains or losses on translation of the net investment in subsidiaries.

During the period of 6 months ended 30 June 2021 and 2020 hedges were fully effective.

As at 30 June 2021 the accumulated value of currency revaluation recognised in reserve capital (resulting from net investment hedges) amounted to EUR 1.2 million, and deferred tax concerning this revaluation EUR 0.2 million.

Transactions with NCI

This item reflects the impact of accounting for transactions with non-controlling interests (NCI). During 6 month ended 30 June 2021 and 30 June 2020 Group paid dividends to non-controlling shareholders. No other transactions were made.

Translation reserves

The balance of translation reserves depends on the changes in the exchange rates. This parameter is out of control of the Group. Total change in translation reserves allocated to shareholders of the parent for 6 month period ended 30 June 2021 amounted to EUR 6.4million. The most significant impact has a change in Russian ruble to EUR (EUR 3.9 million). Other significant changes result from change of Chinese yuan, Hungarian forint, Czech korona and Polish zloty to EUR.

17. Earnings per share

As at 30 June 2020, 31 December 2020 and 30 June 2021 the Company has 219 554 183 shares issued.

Table below presents calculation of basic and diluted earnings per ordinary share for the 6 months ended 30 June 2021 and 2020.

Basic EPS is calculated by dividing net profit attributable to shareholders of the parent by the weighted average number of ordinary shares outstanding during the year (including treasury shares, vested options under share based programs, number of shares to be transferred as a consideration for acquisition).

Diluted EPS is calculated by dividing net profit attributable to shareholders of the parent by the weighted average number of ordinary shares outstanding during the year, adjusted by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares (unvested options for open share based payments programs).

	30 June 2021	30 June 2020
EPS calculation		(restated)
Net profit attributable to shareholders of the parent (EUR millions)	1.9	(152.3)
Weighted average number of ordinary shares for basic EPS (in thousands of shares)	219 340	219 251
Weighted average number of ordinary shares for diluted EPS (in thousands of shares)	220 029	219 453
Basic earnings per ordinary share (EUR)	0.01	(0.69)
Diluted earnings per ordinary share (EUR)	0.01	(0.69)

Reconciliation of weighted-average number of ordinary shares for basic EPS:

Weighted-average number of ordinary shares	30 June 2021	30 June 2020
in thousands of shares		
Shares issued at the beginning of the period	219 554	219 554
Effect of treasury shares held	(551)	(655)
Effect of share options vested	337	352
Weighted average number of ordinary shares for basic EPS	219 340	219 251

Reconciliation of weighted-average number of ordinary shares for diluted EPS:

Weighted-average number of ordinary shares for diluted EPS	30 June 2021	30 June 2020
in thousands of shares		
Weighted-average number of ordinary shares for basic EPS	219 340	219 251
Effect of share options unvested	689	202
Weighted average number of ordinary shares for diluted EPS	220 029	219 453

As at 30 June 2021, 10 476 thousand of options were excluded from the diluted weighted-average number of ordinary shares calculation because their effect would have been anti-dilutive. At 30 June 2020, there were 11 014 thousand of options with anti-dilutive effect.

^{*} Approximate total amount: EUR 611m

- Interest rates: Approximately half of the available facility is provided at variable interest rates (3M Euribor/Wibor increased by a margin) and parts of tranches A and F are provided at a fixed rate.
- Securities: submissions to execution from the Borrowers, guarantees from Group companies, pledge on shares of Sushi Shop Group.
- Other information: AmRest is required to maintain certain ratios at agreed level, in particular, net debt/adjusted consolidated EBITDA is to be held below 3.5 and consolidated EBITDA/interest charge is to stay above 3.5. Both ratios are calculated without the effect of IFRS 16.
- Prior to 2020-year-end AmRest has obtained from its financing banks and majority of bondholders (Schuldschein) waivers to the compliance with certain covenants related to the Group's leverage and interest coverage ratios for the fourth quarter of 2020 and the first, second and third quarters of 2021.
 During said periods, those covenants have been replaced by a commitment to maintain a minimum level of liquidity (EUR 80 million, which is lowered to EUR 50 million for the third and fourth quarters of 2021). This covenant was met as at 30 June 2021.

In April 2017 AmRest entered the Schuldscheinedarlehen ("SSD" – debt instrument under German law) market . The table below presents all SSD issues and their maturities:

As at 30 June 2021 and 31 December 2020 there were no liabilities to former employees.

23. Financial instruments

The following table shows the carrying amounts of financial assets and financial liabilities. The Group assessed that the fair values of cash and cash equivalents, rental deposits, trade and other receivables, trade and other payables, as well as current loans and borrowings and finance lease liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Fair values of noncurrent rental deposits, loans and borrowings and financial liabilities immaterially differs from their carrying values. Trade and other receivables and liabilities presented below does not include balance relating to taxes and employee settlements.

As at 31 December 2020 and 30 June 2021 the Group does not have equity instrument measured at fair value.
