Assets and liabilities are translated into the Polish zloty at exchange rates quoted for the balance-sheet date by the National Bank of Poland. Income and expenses are translated at exchange rates approximated to the rates quoted for the date of a given transaction.

The selected financial data were translated into the euro in accordance with the following policies:

- Assets and liabilities – at mid exchange rates quoted by the National Bank of Poland for a given balance-sheet date;
- Items in the income statement – at exchange rates representing the arithmetic averages of the exchange rates quoted by the National Bank of Poland for the last day of each month in a given calendar quarter.

**2. The Company has not published any forecasts of financial results.**

**3. Other information important for the assessment of the Company's personnel, economic and financial position as well as its financial result:**

**a) Important personnel changes**

Since July 2009, Jacek Trybuchowski has been holding the position of M&A Director, whilst continuing to be a Management Board Member of AmRest. Mergers and acquisitions have played an important role of AmRest strategy, and will continue to be a significant growth pillar in future years. Jacek Trybuchowski's goal will be realization of the AmRest M&A strategy through development of the company's portfolio, managing the due diligence process, undertaking negotiations, and overlooking the integration process.

In September 2009 the Management Board of AmRest decided to revise the company's organisational structure which previously consisted of two main areas: Quick Service Restaurants (QSR) and Casual Dining Restaurants (CDR). As a result, Drew O'Malley, previously QSR Chief Operating Officer, has been appointed to Chief Operating Officer. Drew O'Malley has been involved in AmRest operations for many years – one of his many achievements being the creation of DOS+, an operational system which is currently implemented in all AmRest brands.

At the same time Wojciech Mroczyński, previously CDR COO, has been appointed to Chief People Officer, whilst continuing to be responsible for US business. In parallel Wojciech Mroczyński is a Management Board Member of AmRest. The position of CPO is critical in AmRest, an organisation employing over 18 thousand people. Following a lengthy search for the outstanding applicant, Wojciech Mroczyński was identified as the perfect candidate, satisfying all criteria appropriate for the position. Prior to CDR COO Wojciech Mroczyński was holding consecutively the positions of CFO and COO.

At the beginning of October 2009 Douglas Noble was appointed to Chief Development Officer. Douglas Noble, a Chartered Surveyor, has over ten years experience in the CEE real estate market. Prior to joining AmRest Douglas Noble was Regional Director of ORCO Property Group, responsible for operations in Poland and Hungary. Prior to this, he has been an Associate Partner at construction consulting company Gardiner & Theobald LLP in Czech Republic and Romania. The new CDO is responsible for AmRest's organic growth, construction, and maintenance of the Company's assets.

## b) The Company's performance

The third quarter of 2009 is the first quarter when the results of Applebee's restaurants, acquired at the beginning of July 2009, included in the consolidated financial statement can be fully compared with results generated in the corresponding period of 2008. AmRest Group sales revenues in the third quarter of 2009 amounted to PLN 485 429 thousand and increased by 12.2% compared with the corresponding period of 2008.

The increase in sales was delivered principally due to sales generated by new restaurants opened in Europe and higher sales generated by restaurant chain in US as a result of strengthening USD vs. PLN. In the Q3 2009 the sales revenues generated in US amounted to PLN 164 162 thousand. In Q3 2009 the Company's restaurants operating in Europe generated the sales revenues in the amount of PLN 321 277 thousand – what is 10.3% increase compared with the corresponding period of 2008.

The sales results in the third quarter of 2009 also account for the positive impact of the appreciation in the exchange rates against the PLN. During the third quarter of 2009 apart from USD appreciation against PLN mentioned above (of ca. 33.5%), Czech crown appreciated against the Polish zloty (of ca. 19.4%) and Russian ruble appreciated against the Polish zloty (of ca. 3.5%) compared with the corresponding period of 2008.

In the third quarter of 2009 the gross profit on sales amounted to PLN 44 031 thousand. The decrease of gross margin on sales in the third quarter of 2009 (9.1% compared to 11.1% in the corresponding period of 2008) is a result of higher, relative to sales, cost of payroll and employee benefits and cost of marketing. Increased cost of payroll and employee benefits is resulting from inflexible salary of managers in American restaurants, whereas the reason of relatively higher marketing costs is related to uneven allocation of these expenditures in calendar year. Lower, relative to sales, cost of food had positive impact on Q3 2009 results. A decline of cost of food is resulting mainly from improved sales structure in American restaurants.

The gross profit on sales in first three quarters of 2009 amounted to PLN 138 245 thousand and increased by 20.3% compared to corresponding period of 2008. The decrease

of gross margin on sales in the first three quarters of 2009 (compared the corresponding period of 2008) is a result of US business consolidation and its cost structure. In H1 2008 the results of US business were not consolidated in AmRest total results. US business is characteristic for its high, relative to sales, cost of labor and other operating cost which were not included in corresponding period of 2008. The US gross margin on sales in first three quarters of 2009 amounted to 5.1% and the European gross margin on sales amounted to 11.0%.

In the third quarter of 2009 Company stated operating profit (EBIT) of PLN 24 747 thousand. The EBIT margin in the third quarter of 2009 decreased to 5.1% compared to 6.4% in the corresponding period of 2008. It is connected mainly with relatively increased restaurant costs, described above, and hence lower gross margin on sales.

The EBIT result of the first three quarters of 2009 amounted to PLN 61 197 thousand. This result has been impacted by one-off impairment of fixed assets in amount of PLN 6 328 thousand. This impairment relates to unprofitable restaurants operating in Europe. Furthermore, described above addition of American business caused the EBIT margin decrease in the first three quarters of 2009.

EBITDA margin in the third quarter of 2009 amounted to 9.3% comparing to 10.4% in the corresponding period of 2008. Margin decrease is mainly linked with the start-up costs related to the Company's development in Europe (introducing new restaurant brands, Burger King and Starbucks, and new markets expansion). In the third quarter of 2009 EBITDA margin in Europe was 12.9% comparatively to 2.2% in US. The highest EBITDA margin was generated in Poland and Russia, and reached 16.1% and 17.6% respectively.

In the first three quarters of 2009 the EBITDA margin amounted to 8.8% compared to 11.3% in the corresponding period of 2008. Margin decrease is mainly linked with the start-up costs related to the Company's development in Europe and the addition of US business, which features relatively lower margins. . In H1 2008 the results of US business were not consolidated in AmRest total results. EBITDA margin in Europe in the first three quarters of 2009 amounted to 12.0% compared to 3.6% in US. The highest EBITDA margin was generated on the Company's core markets, Poland and Czech, and reached 15.2% and 11.2% respectively.

The consolidated net profit in Q3 2009 amounted to PLN 10 797 thousand compared with PLN 17 184 thousand in the corresponding period of 2008. In the first three quarters of 2009 the consolidated net profit amounted to PLN 37 113 compared to PLN 39 989 thousand in first three quarters of 2008.

The balance-sheet total as of 30 September 2009 amounted to PLN 1 050 139 thousand and decreased by 4.1% compared with the end of 2008. The Company's total liabilities decreased by 8.9% in comparison with the end of 2008 and amounted to PLN 660 576 thousand. The total equity increased from PLN 369 829 thousand in 2008 to PLN 389 563 thousand as of 30 September 2009.

**c) Other information**

On 8 July 2009 AmRest was informed by Grove Ownership Holding LLC about willingness to realize sell option for remaining 20 % shares of AppleGrove Holdings LLC. Transaction is planned to be finalized by at the end of 2009.

On 20-24 July 2009 the Subsidiary Company, SCM Sp. z o.o. ("SCM") a sale transaction of 19 689 AmRest shares, at average price of PLN 54.08, was concluded. Pursuant to Article 363.4 of KSH SCM had a duty to sell AmRest shares within certain period of time. After these transactions SCM is not in possession of any AmRest shares.

On 31 August 2009, with reference to regulatory announcements 20/2007 dated 21 May 2007 and 35/2007 dated 3 July 2007, informed that the acquisition of OOO Pizza Nord (currently OOO AmRest Russia) has been finally settled between Michael Tseytin ("Seller") and AmRest. As a result of the settlement the Seller signed a one year Promissory Note under which he was obliged to pay a principal of USD 9.0 million to AmRest. The Promissory Note was secured by Share Pledge Agreement. The financial terms of Promissory Note did not differ from standard terms used in a given type of the agreement. Additionally, as a part of the settlement, a call option under which Micheal Tseytin had a right to acquire one of the key RostiksKFC locations in St. Petersburg was cancelled. The payment of the total receivable resulting from Promissory Note was concluded on 29 September 2009.

**d) Events subsequent to the balance-sheet date**

On 2 November 2009 the Court of Appeals in Wrocław issued a verdict in the trial of Tomasz Morawski against AmRest Sp. z o.o. (“AmRest Poland”), 100% subsidiary of AmRest, for payment of a compensation in the amount of PLN 59,4 million in connection with AmRest Poland not purchasing the shareholding of Sfinks Polska S.A. (“Sfinks”) in the possession of Plaintiff (RB 15/2009, RB 30/2009). The Court of Appeals dismissed Tomasz Morawski’s appeal and upheld the verdict of the court of first instance dismissing Tomasz Morawski’s claims in full. Simultaneously Tomasz Morawski has been obliged to return to AmRest Poland the litigation costs. The verdict is final and binding (RB 29/2009).

**4. The Company expects that its performance in the following quarters may be influenced by a number of factors, the most significant of which include:**

- a) Accomplishment of further investments.
- b) Impact of increased interest rates on financial costs (debt service payments).
- c) The slowdown in the economies of Central and Eastern Europe and the United States of America. This may have an impact on disposable income in those markets which, in turn, may impact the results of AmRest restaurants operating in those markets.
- d) Seasonality of sales. Seasonality of sales and reserves is not significant, which is characteristic of restaurant market. In the CEE markets lower sales are recorded in the first half of the year, which is attributable primarily to fewer operating days in February and fewer people dining out. In the second half of the year restaurants generate higher sales income, which is linked with the increased tourist traffic in the third quarter of the year and, traditionally, with the strong tendency to dine out during autumn. An important time in the last three months of the year is the pre-Christmas period, when particularly high sales are reported by the restaurants situated in shopping centres. US market is distinguished by the opposite dependence. After the lower sales period during summer months and slightly increased traffic during Christmas period the first half of the year is characteristic for higher sales resulted from usage of gift card, promotional coupons and many holidays and days off in this period.
- e) A factor with a potentially adverse effect on sales, is a change in consumer preferences resulting from health concerns about the consumption of chicken, the key product on the KFC menu, due to negative publicity concerning consumption of poultry and diseases carried by poultry. The Company mitigates this risk by using at the AmRest restaurants ingredients of the highest

quality, sourced from proven and reputed suppliers, by complying with strict quality control and hygiene standards, and by applying the most advanced equipment and processes ensuring absolute safety of the meal.

- f) The weakening of currencies in Central and Eastern Europe vs. EUR and USD which in the short term may impact the cost structure of the Company. Despite having hedged most foreign exchange exposures related to supplying raw materials in 2009, the Company is still exposed to foreign exchange risk related to a portion of the existing rental agreements denominated in EUR and USD.
- g) The costs related to the introduction of new IT systems may negatively impact the Company's performance in a short-term. However in the long-term the expected benefits will positively impact the Group profitability.
- h) Potential impairment costs regarding own proprietary restaurant concepts, Rodeo Drive and freshpoint.

**5. Important transactions or agreements resulting in related party transactions after the publication of the previous periodical report (i.e. August 31st 2009):**

On 4 November 2009 AmRest informed about purchase of 870 AmRest shares, at average price PLN 71.42, by the Member of the Management Board of the Subsidiary Company. The transaction was finalized between 27 and 30 October 2009. All the above mentioned transactions were executed at the Warsaw Stock Exchange.

**6. During the period covered by this quarterly report, the Company issue the sureties in respect of loans or guarantees whose value represent 10% or more of the Company's equity.**

**7. As at the date of release of this quarterly report no court arbitration or administrative proceedings whose single or aggregate value exceeds 10% of the Company's equity were pending against the Company.**

**8. During the period covered by this quarterly report, the Company did not issued, redeemed and repaid any debt securities.**

**9. No dividends were paid during the period covered by these financial statements.**

**10. Information on the activities of the AmRest Group**

AmRest Holdings SE ('the Company') was established in the Netherlands in October 2000 as a joint-stock company. On 19 September 2008, the Commercial Chamber in Amsterdam registered the change in the legal status of the Company to a European Company (Societas Europaea) and of its name to AmRest Holdings SE. On 22 December 2008, the District Court for Wroclaw - Fabryczna in Wroclaw registered the new office of AmRest in the National Court Register. The address of the Company's new registered office is: pl. Grunwaldzki 25-27, Wroclaw (50-365), Poland.

The Court also registered amendments to the Company's Memorandum of Association related to the transfer of the registered office of AmRest to Poland.

AmRest is the first public Company in Poland operating in a form of a European Company. The purpose of transforming AmRest into the European Company was to increase its operating effectiveness and reduce operating and administrative expenses.

The Group's core activity is operating Kentucky Fried Chicken ('KFC'), Pizza Hut, Burger King and Starbucks restaurants through its subsidiaries in Poland, the Czech Republic, Hungary, Russia, Serbia and Bulgaria on the basis of franchises granted, and Applebee's® in the USA, as well as proprietary 'Rodeo Drive' and 'Freshpoint' restaurants. Currently the Group operates 434 restaurants.

The Group's operations are not materially seasonal.

On 27 April 2005, the shares of AmRest Holdings SE were quoted for the first time on the Warsaw Stock Exchange ('GPW'). Before 27 April 2005, the Company's co-shareholders and entities exercising their rights from the shares held in the Company were International Restaurants Investments, LLC ('IRI') with its registered office in the United States of America, and Kentucky Fried Chicken Poland Holdings BV ('KFC BV') with its registered office in the Netherlands. The co-shareholders held 50% shares each and had the same proportion of voting rights before the Company was quoted on the stock exchange for the first time. IRI was a company controlled by American Retail Concepts, Inc. with its registered office in the United States of America ('ARC'), and KFC BV was a company controlled by YUM! Brands, Inc. ('YUM!') with its registered office in the USA. In connection with the flotation of the Company on GPW, YUM! sold all its shares in the Company and is no more a shareholder or a related entity. Also when the Company was floated on GPW, IRI sold part of the shares held. As at September, 30 2009, WBK AIB Asset Management was the largest shareholder of AmRest and held 20.24% of its shares and voting rights.

The Group operates its restaurants mainly on a franchise basis. The table below shows the terms and conditions of cooperation with franchisers of particular brands operated by AmRest.

Explanations:

1) Starbucks – the AmRest Group took up 82%, and Starbucks 18% of the share capital of the newly-established joint venture companies in Poland, Czech Republic and Hungary. In the third and fourth year after establishing the companies, if the Group does not meet the commitments relating to opening and operating a minimum number of Starbucks cafés in Poland, the Czech Republic and Hungary, Starbucks will be entitled to increase its share in the companies by purchasing additional shares (a maximum up to 50%). In the fifth and ninth year Starbucks will have an unconditional option of increasing its shares to a maximum of 50%. In the event of a disputed take-over or change of control over the Company and/or its shareholders, Starbucks will be entitled to increase its share to 100% by purchasing shares from the Group.

2) The fee valorized at the beginning of calendar year by the inflation rate.

3) Detailed characteristics of preliminary fees:

a) The preliminary fee for Burger King restaurants when the agreement is concluded for 10 years, is USD 25 thousand and when the agreement is concluded for 20 years – USD 50 thousand.

## AmRest Holdings SE

b) Upon opening each consecutive Burger King restaurant exceeding the number of restaurants specified in the development plan, the preliminary fee will be reduced by 50%.

4) Marketing expenses for the Burger King brand are equal to 2.5% of the sales revenues over the first 2 years of operation, 2% in the 3<sup>rd</sup> year and 5% in consecutive years of operation.

5) The marketing fee payable by the franchisee is no less than 2.75% of the gross sales revenues on condition that the franchiser may increase the amount of the marketing fee to a maximum of 4%. Additionally, the franchisee is obliged to transfer 1% of the gross sales revenues for local marketing activities.

6) Preliminary fees for the markets on which the Starbucks restaurants will be operated, taking into account the fee for providing services, amount to USD 400 thousand in respect of Poland, USD 275 thousand in respect of the Czech Republic and USD 275 thousand in respect of Hungary.

### 14. Changes in Future and Contingent Liabilities

As in the previous reporting period, the Company's future liabilities are derived from the Franchise Agreements and Development Agreement.

Group restaurants are operated in accordance with franchise agreements with YUM! and subsidiaries of YUM!. The franchise agreements typically require that the Group pay an initial, non-refundable fee upon the opening of each new restaurant, pay continuing fees of 6% percent of revenues and commit 5% percent of revenue to advertising as specified in the relevant agreement. In addition, at the conclusion of the initial term of the

franchise agreement, the Group may renew the franchise agreement, subject to a renewal fee.

The initial, non-refundable fees constitute in substance rights to use Pizza Hut and KFC trademarks and are included in 'intangible assets' and amortized over the period of the agreement (usually ten years). Continuing fees are expensed as incurred. Renewal fees are amortized over the renewal period when a renewal agreement becomes effective.

The initial fees paid are approximately USD 43.6 thousand per restaurant and renewal fees are 50% of the initial fees, adjusted to reflect changes in the US Consumer Price Index during the term of the relevant franchise.

The most significant conditions relating to franchise agreements that are concluded with Burger King are as follows:

- The license is granted for 10 years period commencing from the date the franchised restaurant opens for business. The Franchisee has the right to renew the term of the agreement for immediate subsequent second term of 10 years upon the fulfillment of certain pre-conditions;
- Franchisee must pay monthly continuing fees to the franchisor equal to 5% of the Gross Sales of the Burger King restaurant operated by Franchisee;
- Franchisee must pay monthly continuing advertising and sales promotion fees equal to 5% of the Gross Sales of the Burger King restaurant operated by franchisee.

The key fees and costs to be borne by the Group relating to agreements with Starbucks Coffee International , Inc. will be as follows:

- The development and service fees for initial operation support equal to an amount USD 950 TUSD;
- The initial franchise fee of 25 TUSD for each Starbucks store;
- The continuing licensing and service fee equal to 6% of sales revenues of each Starbucks store;
- A local marketing spend obligation is to be mutually agreed annually.

The key fees and costs to be borne by the Group relating to agreements with Applebee's Franchising LLC are as follows:

- The initial franchise fee of USD 35 thousand per each opened Applebee's restaurant;
- The fixed licence fee equal to 5% of sales revenues of each of the Applebee's restaurants;
- The monthly fee for advertising and promoting sales in an amount of no less than 2.75% of sales of the Applebee's restaurants, in recognition of the fact that the Franchiser may increase the fee to 4%;
- A local marketing fee of 1% of the sales revenue of the Applebee's restaurants.

**B. INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS AT  
AND FOR THE QUARTER ENDED SEPTEMBER 30TH 2009**

## **Statement on the Accounts' Compliance with International Financial Reporting Standards**

Statement on the Accounts' Compliance with the International Financial Reporting Standards

These consolidated financial statements were prepared in accordance with the International Financial Reporting Standards (the "IFRS") and their interpretations adopted by the International Accounting Standards Board (the "IASB") in the form approved for application on the territory of the European Union by virtue of the IFRS Regulation (the European Commission 1606/2002).

### **Seasonality of Production and Markets**

In the case of the AmRest Group, the seasonality of sales and inventories is not significant, which is typical to the restaurant business.

The restaurants record the lowest sales in the first quarter of the year, which is attributable primarily to fewer operating days in February and fewer people dining out. The next quarter in terms of sales is the second quarter, in which the restaurants achieve better results thanks to improving weather and a positive effect of the beginning of the holiday season in June. The highest sales are achieved at the end of the third and at the beginning of the fourth quarter. Very good performance in the third quarter is attributable to the increased tourist traffic. Autumn is traditionally a season when people tend to dine out more frequently, which translates into higher sales. An important time in the last three months of the year is the pre-Christmas period, when particularly high sales are reported by the restaurants situated in shopping centres.

### **Form of Presentation of the Consolidated Financial Statements and Type and Value of Changes in the Applied Estimates**

Amounts in these consolidated financial statements are presented in the Polish złoty (PLN), rounded off to full thousands. These financial statements were prepared based on the historical cost convention, except financial assets and liabilities (including derivative instruments) which are subject to measurement at fair value through profit or loss.

The preparation of financial statements in compliance with the International Financial Reporting Standards requires the Management Board to make certain assumptions, judgments and estimates, which are reflected in the applied accounting policies and affect the value of assets and liabilities, revenues and expenses disclosed in these financial statements. The estimates and the related assumptions, which are made on the basis of experience and various factors deemed relevant in given circumstances, are the basis for valuation of the assets and liabilities which do not directly result from other sources. Actual results may differ from the estimates.

Estimates and their underlying assumptions are reviewed on an on-going basis. Any adjustments of the accounting estimates are recognised in the period in which the adjustments were made, on condition that they concern this period only, or in the period in

which they were made and in the future periods, if they concern both the current and future periods.

The most significant estimates and assumptions concern the valuation of property, plant and equipment, intangible assets, including goodwill, revaluation allowances for accounts receivable and inventories, and adjustment to the valuation of deferred tax assets. During the period covered by these financial statements, there were no material changes in the value of estimates disclosed in the previous reporting periods.

The accounting policies have been applied consistently in all periods presented in these consolidated financial statements. The accounting policies were applied consistently by all members of the Group.
